

OpenDNSSEC release plan:

Date: Thursday 10 November - Friday 11 November

Time: Start 09:00

Location: .SE, Ringvägen 100, Stockholm, Sweden

Workshop:

This is a two-day meeting where we discuss the future development of OpenDNSSEC.

Agenda Day 1:

Agenda:

- Bring up various meeting administration topics, like lunch, dinner, flights, etc.
- Discuss the agenda and rearrange it if necessarily.

Topics from OAB (1h):

- What was discussed during the last OAB meeting.

Our goals and visions for OpenDNSSEC (1.5h):

- What needs to be done.
- What are our future obstacles.
- How are we compared with our "competitors".

OpenDNSSEC Company (1.5h):

Proposal for future releases which describes:

- New structure
- Proces flow
- Test levels
- Documentation
- Project plan
- Release plan
- Deadlines

Testing (1h):

- In what direction would we like to take the testing.
- What needs to be done.
- Supported platforms?

"The memory issues"-findings (1h):

- Present the findings I (Jerry) have made and have a discussion about memory usage.

Enforcer NG (1h):

- Transitioning from an "old" enforcer to the Enforcer NG - how is state going to have to be transformed, etc.
- How to get more users to test the software.

Agenda Day 2:

SoftHSM v2 (30 min):

- How Rickard and Roland intend to continue the development.

Auditor (1h):

- How the Auditor should fit into the new design with Adapters.

Switching over to the Jira, Confluence, et al (1h):

- How to stop using TRAC.

OpenDNSSEC release plan (1h):

- What should go into what release.
