

Opening

Present: Yuri, Rickard, Roland (minutes)

Agenda

- Action items
- Open issues
- Testing
- Alpha + beta
- AOB

Action items

We keep two action items open carried over from the last meeting.

Open issues

For the alpha:

- [OPENDNSSEC-183](#) Wrong timing after introducing KSK
- [OPENDNSSEC-185](#) Problems with ZSK rollover
- [OPENDNSSEC-186](#) Cannot submit/ds-seen for a KSK --> Issue closed by Rickard
- [OPENDNSSEC-206](#) Does not talk with the signer
- [OPENDNSSEC-224](#) Key rollover issue

For the beta:

- [OPENDNSSEC-208](#) Double sqlite3 m4 in EnforcerNG
- [OPENDNSSEC-213](#) EnforcerNG does not build on FreeBSD: error 'arc4random' was not declared in this scope
- [OPENDNSSEC-219](#) Compile failed on NetBSD: c++ cwchar problem --> Reassigned to René
- [OPENDNSSEC-220](#) Compile failed on OpenBSD: Need to sync signer with trunk
- [OPENDNSSEC-221](#) Make check ORM fails on Debian/Ubuntu/OpenSUSE: might be CppUnit version problem
- [OPENDNSSEC-222](#) Create transitioning tool from Enforcer to EnforcerNG
- [OPENDNSSEC-223](#) Create export tool that outputs the Enforcer state --> Implemented by Siôn

Testing

Rickard reported a new issue, [OPENDNSSEC-230](#), an issue with the DS export command (it gives the wrong output, it should not output the DS for the old KSK).

Alpha + beta

List of issues to resolve before an alpha:

- [OPENDNSSEC-183](#) Wrong timing after introducing KSK
- [OPENDNSSEC-185](#) Problems with ZSK rollover
- [OPENDNSSEC-206](#) Does not talk with the signer
- [OPENDNSSEC-224](#) Key rollover issue

These issues will be linked to the alpha version in JIRA so we can track progress.

List of issues to resolve before a beta:

- [OPENDNSSEC-208](#) Double sqlite3 m4 in EnforcerNG
- [OPENDNSSEC-213](#) EnforcerNG does not build on FreeBSD: error 'arc4random' was not declared in this scope
- [OPENDNSSEC-219](#) Compile failed on NetBSD: c++ cwchar problem
- [OPENDNSSEC-220](#) Compile failed on OpenBSD: Need to sync signer with trunk

- [OPENDNSSEC-221](#) Make check ORM fails on Debian/Ubuntu/OpenSUSE: might be CppUnit version problem
- [OPENDNSSEC-222](#) Create transitioning tool from Enforcer to EnforcerNG
- [OPENDNSSEC-230](#) Doing Double-RRset and not Double-Signature KSK rollover

AOB

Yuri presented on the Enforcer NG work at the SATIN 2012 workshop in London last week. The paper is available on the Wiki in the architecture section on the Enforcer NG, [here](#).

Next meeting

Tuesday April 10th at 14:00h CEST / 13:00h BST

Action items

- **Rickard and Yuri** - discuss and resolve [OPENDNSSEC-183](#) and [OPENDNSSEC-185](#)
- **Roland** - discuss release strategy for OpenDNSSEC 2.0 at OAB meeting in Ljubljana
- **Roland** - discuss possibility of doing research on Enforcer NG rule correctness by university researchers
